Žiacka dielňa s prezentačnou časťou

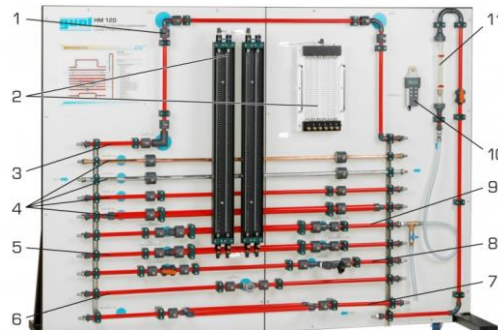

HL961 montážny trenážer: potrubia, ventily, armatúry

- 1 safety valve
- 2 ball valve
- 3 shut-off valve
- 4 wedge gate valve
- 5 piston slide valve
- 6 diaphragm valve
- 7 ball valve/water connection
- 8 non-return valve
- 9 steam trap
- 10 shut-off butterfly valve
- 11 bleeding
- 12 strainer
- 13 sight glass

HM700.20 výrezový model: piestové čerpadlo

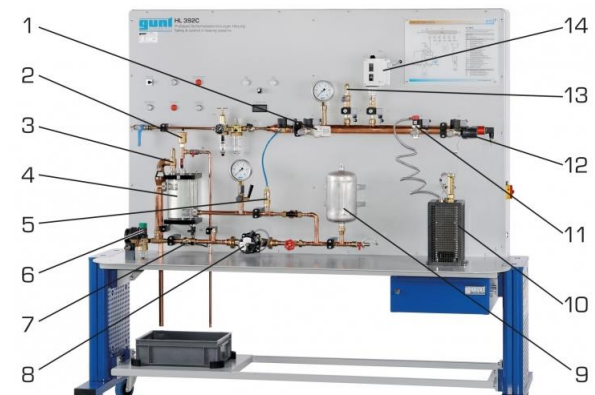

HM120 straty v prvkoch potrubí

- 1 pressure measuring point
- 2 tube manometer
- 3 pipe section with deflections
- 4 straight pipe sections
- 5 sudden contraction/enlargement
- 6 gate valve
- 7 dual line
- 8 ball valve/angle seat valve
- 9 gradual contraction/enlargement
- 10 differential pressure meter
- 11 flow meter

VS106 výrezový model: spätná klapka

HL392C bezpečnosť a kontrola vykurovacích systémov

- 1 thermostatic valve
- 2 quick-action ventilating valve
- 3 safety valve
- 4 air separator
- 5 non-return valve
- 6 pressure reducing valve
- 7 flow switch
- 8 pump
- 9 expansion vessel
- 10 heater
- 11 thermal discharge safety device
- 12 temperature controller
- 13 safety valve
- 14 safety pressure cut-out

MT154 montážne cvičenie: uzavierací ventil
