

2387 M mechatronika

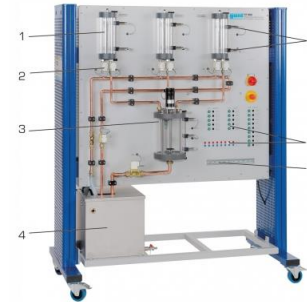

Učebňa programovania CNC strojov

IA520 počítačom riadené kombinované pracovisko riadenia výroby

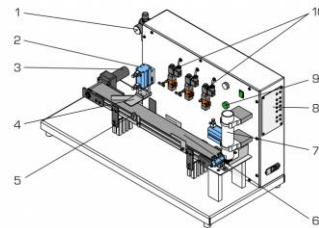

- 1 safety device (photoelectric barrier)
- 2 lathe
- 3 stock
- 4 patchboard
- 5 PLC
- 6 robot controller
- 7 inspection station
- 8 milling machine
- 9 travel unit
- 10 robot
- 11 finished parts store

Učebňa priemyselnej informatiky

RT800 PLC riadený proces zmiešavania

- 1 measuring tank
- 2 solenoid valve
- 3 mixing tank with stirring machine
- 4 storage tank
- 5 rail for mounting of a PLC system
- 6 lab jack panel for connection of a PLC
- 7 level sensor

IA210 PLC riadený dopravník

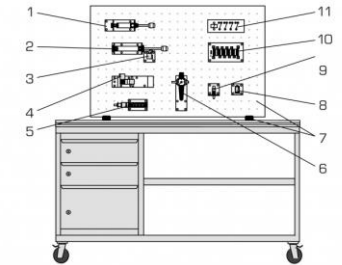

- 1 maintenance unit
- 2 double-acting cylinder
- 3 conveyor belt drive motor
- 4 punching or sorting device
- 5 reflex photoelectric proximity switch
- 6 conveyor belt
- 7 container for 11 workpieces
- 8 electrical connections for solenoid valves and sensors
- 9 display of limit switch
- 10 5/2-way solenoid valve

IA130 PLC modul

- 1 lab jacks
- 2 pushbutton
- 3 lamps
- 4 PLC

Učebňa mechatroniky

RT770 tréningové stanoviisko

- 1 cylinder, single-acting
- 2 cylinder, double-acting
- 3 3/2-way valve with roller lever
- 4 3/2-way valve
- 5 distributor block with hand valve
- 6 maintenance unit
- 7 assembly panel
- 8 dual pressure valve (AND gate)
- 9 quick-vent valve
- 10 sequencer
- 11 relay board
